This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. CORRECTIONS.

June 22, 1585. For Da . . . read David.

Sept. 14, 1593. For Symth read Smyth.

Sept. 6, 1625. Perhaps Sorton should be Oaton.

March 25, 1643. For Johhnnis read Johannis.

June 5, 1672. It is not quite clear whether "de Burrow" belongs to Blessly or to Chin.

Dec. 11, 1767. For John read Joseph.

PREFACE.

I HAVE given some account of the state of the Wedmore Parish Registers in the preface to the printed volume of Marriages. It will there be seen that there are no very serious gaps, though a certain number of entries are sure to have been omitted.

Here in this printed volume of Burials are 12,947 names, spread over exactly 300 years, viz., 1561 to 1860. That gives a yearly average of about 43. In the first 100 years are 4638 names. In the second 100 years are 4149. In the third are 4160. Thus the burials are most in number during those 100 years wherein the population must have been smallest. The high rate of mortality then must have been owing to the frequent epidemics, and they to the want of cleanliness and neglect of sanitary laws. The years wherein the mortality was highest seem to have been 1597 (87 burials); 1624 (95); 1638 (110); 1639 (83); 1643 (103); 1671 (101); 1678 (90); 1680 (83); 1705 (86); 1706 (83); 1729 (94).

There is a reaper whose name is Death. These are they whom he took from a single parish during a space of 300 years. One naturally asks, What was the population from which he took them? The earliest account of the population of Wedmore that I know of at present is in a Presentment of Jurors, November 26th, 1650. (Lambeth MSS., Vol. xv. 471.) It is there said that "the Parish of Wedmore consisteth of about 300 families." Whether that would bring the population up to 1000 I know not. Judging from the high rate of mortality amongst infants, one would say that the average number to a family must have been smaller then than it is now.

The next account of the population that I know of is in Collinson's History of Somerset, published in 1791. The population is there said to have greatly increased since the recent enclosure of the moors, and to have amounted to nearly 1800.

Since 1801 there has been the decennial census, showing the following results :—

Year.	Pop.	Year.	Pop.	Year.	Pop.	Year.	Pop.	Year.	Pop.
1801.	2122.	1821.	3079.	1841.	3995.	1861.	3653.	1881.	3060.
1811.	2480.	1831.	3557.	1851.	3905.	1871.	3434.
